## PLEASE NOTE

- As metallic objects and microchips can cause artifacts it is helpful to know in advance if any may be present in the patient.

### Does the patient have any of the following :

- Pacemaker or other electronic/mechanical implant
- Any known metal fragments in the eyes or any other part of the body
- Surgical implants / plates / clips
- Is the patient microchipped
- Is the patient a rescue case
- Could the patient be pregnant

Would you like us to Invoice you (the referring Practice) directly YES  NO

**THANK YOU FOR CHOOSING TOLL BARN VETS FOR YOUR CT REFERRAL**

## TERMS & CONDITIONS OF IMAGING REFERRAL

- By submitting this form you, the referring veterinary surgeon, are agreeing to the following terms & conditions.
- You are responsible for, and agree to, submit all relevant history and laboratory reports that could impact the safety of the patient whilst under our care
- CT cases can be sent to us for imaging only without being fully referred to us
- Upon imaging the case, you have the option to interpret the images yourself / via a third party, or we will provide a full report
- The client will have an admission and discharge appointment with a veterinary nurse or veterinary surgeon but will NOT receive a consultation, hence a referral consultation fee will not apply
- Contrast media used in advanced imaging are used with caution in patients with impaired renal or liver function, therefore all patients sent for imaging must have had a pre-operative blood screening test within the last 2 weeks, if this has not been done, or no results have been provided by the referring vet, a Pre-GA blood test will be performed on the day of imaging at an additional cost to the owner
- Clients are required to pay in full for imaging on the day of the procedure or to provide a completed Insurance form with appropriate Pre-authorisation
- We will not discuss imaging results with the owners, give any treatments or treatment recommendations\*  
(\*Except in emergency situations where the patient's welfare is at risk, in such cases we will always try to contact you first to keep you informed)
